

Products according RoHS – Directive 2002/95/EC

The directive RoHS, effective July 1st 2006, specifies the prevention of various hazardous chemical substances in electronic and electrical equipment.

According to the information from our material suppliers, we can confirm that the chemicals and elements specified below are **not** contained in icotek products:

Affected chemicals, elements or substances are:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent Chromium (Cr6+)
- Polybrominated Biphenyl (PBB)
- Polybrominated Diphenyl Ether (PBDE)

We are glad to confirm, that all delivered articles are RoHS-compliant and lead-free. The RoHS-compliance will be reaffirmed on icotek packaging labels.

Please do not hesitate to contact us anytime for additional information.
