

KEL-DPF cable entry inserts

The KEL-DPF was developed particularly for the introduction of supply cables into the switch cabinet. Due to the flexibility of the pyramid, the cable entry and the positioning is much easier compared to the usage of conventional cable glands. The large clamping range enables the user to enclose the KEL-DPF to a machine shipment even when the exact diameter of the supply cable is not known before. The included metric locknut will fix the KEL-DPF securely.

Your advantages:

- Assembly within seconds
- Highest flexibility
- Small installation dimensions
- Fits metric standard cut-outs
- Cost-efficient
- Ideal when diameters of cables to be inserted are first known on site.

KEL-DPF cable entry inserts

Specification:

Material frame: Polyamide
 Material sealing plate: Elastomer
 UL-94 V0, self-extinguishing
 halogen-free, silicone-free
 Protection to IP 65

Type	Order No.	Metric thread	Clamping range	PU
KEL-DPF 25/3-17	42652	M25	3 - 17 mm	5
KEL-DPF 32/6-24	42653	M32	6 - 24 mm	5
KEL-DPF 40/11-32	42654	M40	11 - 32 mm	5
KEL-DPF 50/17-42	42655	M50	17 - 42 mm	5
KEL-DPF 63/22-53	On request	M63	22 - 53 mm	5
