

# DT Cable entry inserts

Type	Order No.	Number of cables	PU	Description
------	-----------	------------------	----	-------------

DT 1	41500	12x max. 6.5 mm 2x max. 12.2 mm	10	
DT 2	41510	16x max. 7.1 mm	10	
DT 3	41520	4x max. 6.5 mm 3x max. 9.5 mm 3x max. 12.2 mm	10	
DT 4	41530	9x max. 9.5 mm	10	

## Product description

The cable inserts range DT are made to route non-assembled cables. A very high packing density can be achieved.

DT inserts are usable with every KEL frame instead of using large KT inserts.

KEL 24 | KEL 16 | KEL 10 | KEL-B - pages 6 - 9  
 KEL 24 extensions - pages 11 - 13  
 KEL-FG - page 14

## Advantages

- With only one KEL cable entry frame, both pre-assembled cables and cables without connector can be routed
- High packing density
- Enables a sub-assembly of cable harnesses

## Specification

Material	Elastomer
Flame class	UL-94 Vo, self-extinguishing
Protection class	IP 54
Temperature	- 30°C bis + 90°C (static)
Properties	halogen-free, silicone-free
